

Appendix #49

DEPARTMENT OF MEDICINE
USC UNIVERSITY HOSPITAL

Mar 2, 1993

To: Sol Bernstein, MD

From: David Cundiff, MD

A handwritten signature in cursive script that reads "David Cundiff".

Enclosed is my unsigned time card for the most recent pay period. As you recall from our Feb. 25th meeting, I signed the previous time cards under protest so that my paycheck would not be interrupted.

Mr. Navarro was going to check the time cards and requests for "OA" and "E" time forms of the other members of the General Internal Medicine Section. This is to determine if I have been singled out to be allowed no flexibility in the way I work my 40 County hours per week (in this case only 61 out of 72 hours in the pay period).

Please inform me as soon as Mr. Navarro makes his report to you. If his report confirms that Dr. Goldstein has been exerting his authority over me in a prejudiced manner, this time card should be signed and the previous two time cards readjusted to reflect the full 134 1/2 hours that I worked.

Also enclosed is my letter to Dr. Goldstein dated Feb. 23, 1993. He gave no specific reply but referred to our meeting of Feb. 25, 1993. Please include reply to this letter in your written response to resolve the third level grievance.
